

ISC's API

Why ISC's API?

- Enables your possible insured to obtain a rate for Contractor GL anytime day or night and provides you with a notification by email and automatically places information and quote into your ISC quoting profile for follow-up and bind completion
- Zero cost to the agency other than your website developer setup
- ISC's Contractor GL is completely online quote/sign/bind with 15% Commission!

Create API Credentials

This can be done by any retail admin user within the agency where you log into ISC OMGA.

1. Log into <https://isc.onlinemga.com/amp/login> (if you are already logged in, skip this step)
2. Click Lead Sources on the far right

Agency Info

Edit Agency

Provide the developer for your website with everything they need to implement the API

1. Provide the Lead Campaign Name **Website Lead**, the API Key ID **agency_website**, and the API Key, **generates when you save from above and is shown on your screen**, to your website developer.

Example:

Lead Campaign Name: **Website Lead**

API Key ID: **agency_website**

API KEY: 20e446b69410263500b463fb8734ea0a (dummy one do not use)

2. Provide your website developer with a link to the API documentation
